This **Student Lab Manual / Workbook** contains the printed laboratory or classroom assignments that allow students to put into practice the concepts and problem solving skills learned in the classroom. The Lab Manual / Workbook is designed to complement *Virtual ChemLab*.

*Virtual ChemLab* is a set of realistic and sophisticated simulations covering general and organic chemistry laboratories. In these laboratories, students are put into a virtual environment where they are free to make the choices and decisions that they would confront in an actual laboratory setting and, in turn, experience the resulting consequences.

These **laboratories include** simulations of:

inorganic qualitative analysis

fundamental experiments in quantum chemistry

gas properties

titration experiments

calorimetry

organic synthesis

organic qualitative analysis.
